

# Kansen binnen fusie

18 september 2025

# Grote investeringen in commerciële Fusie

## 4. COMPANIES WITH \$200M INVESTMENT OR MORE

- DIFFER and Commonwealth Fusion Systems (CFS) signed a two-year Statement of Work to advance the realization of fusion energy. The collaboration project aims to develop a framework for exhaust control, including models, observers, and controllers for CFS's SPARC fusion machine.

The screenshot shows the ITER website's 'CALL FOR TENDERS' page. It features a navigation bar with links like 'ABOUT', 'MACHINE', 'SCIENCE', 'CONSTRUCTION', 'ASSEMBLY', and 'NEWS & MEDIA'. Below the navigation bar, there are tabs for 'Call for Tenders', 'Call for Expertise', 'Open Tenders', 'Forthcoming Tenders', and 'Market Survey'. The main content area is titled 'CALL FOR TENDERS' and includes a 'New' button and a 'Sign up to automatically receive our procurements Notifications' button. Below this, there are filters for 'TENDER STEP' and 'COST RANGE'. A table lists various tender items with their reference numbers, titles, tender processes, current steps, and cost ranges.

| Reference                     | Title                                                                                                                           | Tender Process      | Current Step    | Cost range |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------|-----------------|------------|

De ILO heeft info, wie er een pre-qualificatie heeft voor grote tenders. Kansen voor subcontractor werk.

Er komen meer Technology Development contracten om betaald “key” technologie te ontwikkelen.
