

Dutch Big Science ILO-Net

- Network of Industrial Liaison Officers; employed at the national research (science) institutes
- Netherlands Organization of Scientific Research (NWO) provides the funding for back-office (total 1.0 fte) and joint activities (150 k€)
- As a network active for almost 6 years, initiated by NWO-institutes
- Database of approx. 180 companies
- Goal from 01-01-2019; permanent position in the new NWO-organization, focussing on;

Raising georeturn from Big Science

Promote co-development between science and industry

Promote spin-off and spin-in (knowledge transfer)

New Mission?

- ILO-Net is organized at the “demand side”, acting on the science requirements;

“Organize the scientific user communities (1) through the development of large scientific infrastructures” (2)
